Dear Harold,

Sorry I missed you when you were in town recently. Hope your health is holding up. I'll try to remember only to use letter size paper.

Your 1/22/81 letter mentions that you have the referred 89-43-103, which I have as originally processed. Please send me a copy when you get a chance.

I haven't finished the Sifton book, but I am interested in his point about the brain lacerations. (By this time Jim should have sent you the GSA memo ~~from~~ ^{from the} JFK library) That's illustrated on pgs 252-4. What do you make of it?

I'm still planning on a visit, but I haven't got things worked out yet.

The CIA has to submit CD 347 for an in camera inspection next week. I'm expecting additional releases ~~on~~ when they do.

You may know that I've asked the CIA for all communication between it and the HSCA. They say its Congressional records. I plan to sue them very soon on this. That should confuse those clerks down at the U.S. Courthouse, with 2 "Allen v. CIA"'s on the docket.

Best wishes,
Maul
